Empowering waterfront communities to restore our ocean and waters

We are building a Coalition of waterfront cities (including ports), regions, and islands, empowering them with tailored services to lead the transition to clean, healthy, and resilient water systems, as part of the EU Mission *Restore our Ocean and Waters by 2030*.

Funded by
the European Union

ABOUT CO-WATERS

Europe is taking action to restore our ocean, seas, rivers, and lakes. The Coalition of Waterfront Cities, Regions and Islands (CO-WATERS) is a Horizon Europe project running from 2025-2029, **empowering waterfront cities (including ports), regions, and islands to lead the transition to clean, healthy, and resilient water systems.** It offers tailored services, such as networking, peer learning, trainings, citizen and stakeholder engagement, and funding advice, to help them take effective action.

Backed by 17 partners, including six pilot areas, CO-WATERS is building a **strong, connected Coalition capable of achieving the goals of the EU Mission Restore our Ocean and Waters by 2030.** To support recognition of efforts in this space, the project will also develop the Mission Ocean and Waters Label, to be acquired by waterfront cities (including ports), regions, and islands with strong and ambitious transition plans.

GET INVOLVED

Be part of a **growing European movement restoring our ocean and waters.**

OUR PARTNERS

Our diverse **consortium includes networks, companies, research institutions, cities, regions, and islands**, all united to restore our ocean and waters.
